

I am sorry but I will not be able to come to the Health Policy Oversight Committee meeting on November 3rd but I wanted to let the committee know that I think that this privatization train wreck seems to be a very poorly thought out plan. Those most vulnerable Iowans are seeming to be the pawns in this scheme that does not appear well planned and it, excuse my personal bias, it seems like a senseless political move by our Governor to avoid the process of change to go through the normal channels. It just stinks and those with disabilities and other vulnerabilities will be the ones that are at risk. There is no good sense in rushing this with so much at stake. Please put the brakes on this scheme.

Thanks,
